Description

One of the most successful models produced by Hanse Yachts, the Hanse 385 has earned a strong worldwide reputation as a capable, practical and enjoyable cruising yacht, offering excellent value in this size range. Mell is among the final boats built, launched in 2017.

Offered for sale by her original owner, Mell has been thoughtfully upgraded for cruising, short-handed sailing and is equally well suited to club racing. She has been serviced annually, with recent works including new standing rigging completed in November 2025 and antifouling soda-blasted back to gelcoat two seasons ago.

Designed by Judel / Vrolijk & Co., Mell features a well-balanced hull that delivers impressive performance combined with easy handling and relaxed short-handed cruising. All control lines are led aft to twin electric sheet winches, ensuring effortless sail handling from the cockpit. The generous cockpit is both comfortable and practical, with integrated rope lockers keeping the space clean and uncluttered. Cockpit cushions and a large folding table create an inviting setting for alfresco dining, whether at anchor or underway.

Below decks, the sought-after two-cabin layout features a spacious forward owner's cabin and a large double aft cabin. The head is located to port, while a generous lazarette to starboard provides excellent storage, with access from both the galley and cockpit.

The bright and airy saloon offers plenty of space for the family. Finished in Italian oak with teak and holly flooring, the interior feels both warm and contemporary.

Natural light fills the interior through numerous opening hatches and fixed hull windows, complemented by indirect, dimmable LED lighting to create a relaxed and comfortable ambiance throughout.
