Description

Huge Price reduction! Possibly the highest specified Hanse 458 ever!

Time Out X2 has to be inspected to fully appreciate her impressive cruising and performance sailing setup. As the name suggests, this is the second Time Out for this owner. The first a Hanse 385 which was cruised extensively. This is where the seed was planted for the next adventure. Already sold on the performance and handling characteristics of Hanse yachts the choice was to go into the Hanse 458 for her size, speed and comfort. Over a year in the making Time Out X2 has been setup for extensive cruising along with club racing. She's one of the last Judel/vrolijk designed Hanses to come to Australia and offers head turning looks and speed to match.

Her 3Di sails look impressive coupled with her stunning metallic painted hull. Everything onboard has purpose and has been thoughtfully setup for short handed cruising or racing. Some examples of this are, electric reversing sheet/halyard winches, extensive electronics, Harken split track car system for the mainsail makes sail handling a breeze not to mention the bow and stern thrusters take the edge off berthing at the end of the day.

Hanse yachts have always performed well and Time Out X2 exceeds expectations in every way. The 458 offers a spacious cockpit with ample seating, large sail locker forward with custom storage, 3 light filled cabins and an abundance of light through her oversized deck hatches and hull windows.

Presented in immaculate condition with everything you need to start cruising straight away.

Additional features include
